Full legal name – Euneos Oy / Euneos Corp.

Address/ City/ Country: Vaijeritie 12, 01640 Vantaa, Finland

2. Background and Experience

(Please briefly present your organization)

Euneos Corp., (<http://www.euneos.eu>), registered in Helsinki Finland in 2005, is a Erasmus+ KA1 course provider offering a rich choice of quality courses. We work together with schools and institutions in the member countries of the Erasmus+ program of the EU and help them to access to the teacher-in-service training activities of Erasmus+.

Our aim is to promote European development in education, and our courses focus on supporting schools in their digital turn and on helping teachers and schools to manage their educational projects. Internationalisation, digital innovations and new pedagogical methods belong to the main topics of our courses. At the same time, Euneos wants to give teachers better chances to keep up with the development and provide them with new professional impulses and also peer contacts and support.

Our promise is to offer courses with the aim of rich content and high-level learning. Our starting point is always collaboration with schools, which implies that we want to know the situation of schools to be able to design and realise courses tailored up to the needs of schools. Euneos courses are always learning processes, not only to the participants but also to Euneos itself. We greatly appreciate the evaluations we get from the participants and exploit all response in course preparation.

Both the trainers and administration staff of Euneos are most experienced in the field of their expertise. Euneos responds to different kind of needs of schools and institutions in education offering support in issues such as applying for KA1 courses, teacher-in-service training, project management, networking and consultancy. Webinars and other live online sessions of Euneos enhance our collaborative approach to the development of our courses.

As a company Euneos is a spin-off of the Comenius 3 network COMP@CT since 2005, in accordance with the educational aims of the EU commission. Beside in-service training courses since 2006, Euneos has made a name as an active partner of numerous EU projects, such as EFELCREN, LETHE, Bridging Insula Europae, Patchworld, WebCEF, CEFcult, ThreeC and Open To Badges.
