

## Participants' feedback to Digital Turn course in Tenerife, 15 – 21 Jan 2017

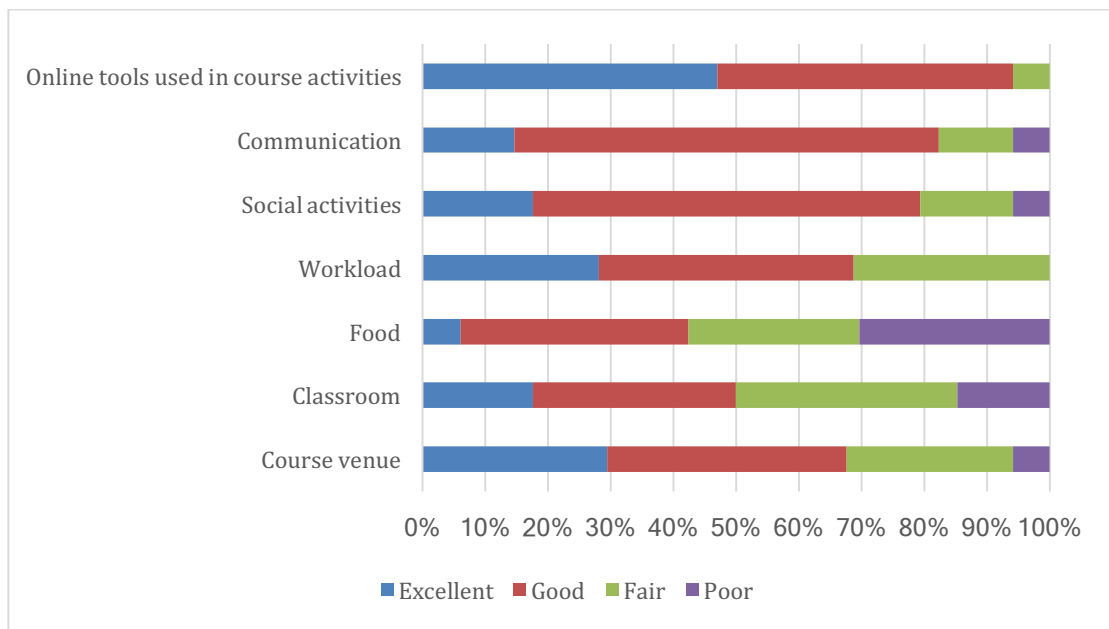

### 1. Level of satisfaction with the following aspects of the Digital Turn course and preparation activities

### 2. Which events, topics and trainers did you like the most?

### 3. Please evaluate the following aspects of the course

Some open-answer comments from participants:

1) What did you like about course topics and staff:

- This course was very interesting.
- A good mixture of theoretical and practical issues
- For me it was a great opportunity to participate at this course.

- För lite tid för praktiskt arbete och verktyg som kom för sent för att få med i presentationen
- There is a spread in the group from schools who has no tecnic at all and schools who has everything. More exchange between schools, give each other tips
- There was not enough time for discussion with the other partizipants of other countries to get knowledge of the different european school systems. There were no strategy to mix groups/ nations to improve international contacts. A lot of presentation, less movements , maybe „games“ or s.m
- First day unofficial meeting was noted between 18-19, but we came 18,35 and nobody was there. Please update schedule during the course if its have changes
- Gamification of peer tutoring was great.
- Maybe the course should be split between principals and teachers to get it more hands on for everyone

## 2) Which topics should be changed or removed?

- More conversation
- More practical phases that allow participants to exchange their experiences & knowledge.
- For me (as a teacher, not a principal), I would've hoped more practical lessons. Applications, programs, web-sites etc. For me there was a little bit more "administrational" stuff.
- Too much Google in this course
- Säkerhet
- More info about the targets perhaps. But otherwise positive
- More about security with internet and more critical approach with google

## 3) Anything else you would like to add?

- After sitting for hours, pillows on the chairs would have been a great idea. ;-)
- Thank you for all teachers in the course, you all were really nice and knew a lot from your topics!
- I felt like Alice in the Wonderland, so many development opportunities they offered. Thanks
- Thank you for everything!
- Det har varit väldigt trevligt och man har fått många verktyg att undersöka när man kommer hem
- Chairs were very uncomfortable
- Maybe cooked lunch
- Topics were as promised but the schedule was a bit tight. I'd like to have more time for discussion.
