

10-16 November 2019 Benalmádena

## **How to make your school more international.**

### **The Erasmus+ School Exchange Partnerships Special Edition**

This edition of the course offers all the features and subjects of the regular International course, but in November we especially focus on the application for an Erasmus+ School Exchange Partnerships project (KA229) for you and your students.

With the deadline only a few months away we give you the opportunity to find reliable partners, to devise a project subject, to set up a project plan together and to start building the structure and content of the project.

You will be able to decide which partner will be the coordinator, how many project meetings will be organised and how you will organise them to ensure a well-balanced project. Of course, we will also discuss some of the questions in the application form and give advice on how to tackle them.

Our trainers will coach you in the process throughout the week so that you can benefit from their extensive experience and arrangements can be made for the post-course follow-up. If necessary an additional video conference can be organised a few weeks after the course to discuss and assess your progress.

At the end of the course you will go home with a solid set-up of an Erasmus+ School Exchange Partnerships project (KA229) that will have to be developed and finalised in the months before the deadline by you and your new partners.
